New 20FT high cube
BASE

Marine upgrade
EXTERIOR

Dual tilt-up gas strut
PANELS

The Coffs Harbour Jetty Cafe is built from a 20FT new high cube container. External batons and an eco deck give a warm, welcoming ambience, and the exterior's marine upgrade ensures resilience against salty sea spray.

Inside, the marine stainless interior has dual tilt-up gas strut-assisted panels fortified with safety lock-in bars. Custom cabinetry and benching were designed to the client's specifications, and the pre-built unit needed minimal onsite setup.
